

I would like to encourage you not to give preference to LPFM stations over national ones. Our family truly enjoys listening to K-LOVE as it gives us a family station that plays the style of music that is not available locally. It also helps develop a sense of national community as we know that all across the country, people are listening to the same thing we are at the same time. We recently had K-LOVE added to our community and it has become a constant in the car and at home. It would leave a big gap to have it taken away. I know that my children ages 15, 12, 10, 10, 8, 6 are being exposed to encouraging and morally strengthening music which is helping them to develop into strong trustworthy citizens. The future of our country depends on citizens that have learned to value others and who have not filled their minds with destructive thoughts. This is why I am asking you not to pass any new regulations that would take away the possibility of us losing this national station in our area of Anchorage, Alaska Thank you, Donna
